

Recent highlight (video, publication, event)

The **International Plant Protection Convention (IPPC)** is an **intergovernmental treaty** signed by 184 countries or contracting parties, whose goal is to protect the world's plant resources from invasive **pests** and to promote **safe trade** of agricultural products. The **Convention** adopts and promotes the application of International **Standards** for Phytosanitary Measures (ISPMs) as the main set of tools to achieve its goals, making it the sole global standard setting organization for plant health. 🌱 [Read more](#)
